

INTERIOR

■ DESCRIPTION

On the new GS430/300, the following changes have been made to the interior equipment.

1. The design of the meter cluster has been changed.
2. The color of the center register has been changed.
3. A chrome-plated hole bezel has been adopted for the automatic transmission shifter.
4. The front panel of the ashtray receptacle has adopted genuine wood.
5. The design of the steering wheel has been changed.
6. An assist grip has been newly added to the driver's side.
