

Tire Pressure Warning System

Tire Pressure Warning System

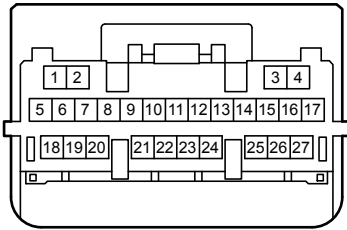

Tire Pressure Warning System

The diagram illustrates the electrical connections for the F31/F32/F100 navigation receiver assembly. It shows the CPU at the top, connected via I/F (Interface) blocks to MST1 and MSM+ lines. The MST1 line (blue) connects to the EAU (Electronic Assembly Unit) at pin 11 (A), which then connects to the SWG (Switching Unit) at pin 24 (C). The MSM+ line (green) connects to the EAU at pin 10 (A), which then connects to the SWG at pin 7 (K). The SWG is connected to the Radio & Display Receiver Assembly (F31(A), F32(B), F100(C)) and the Navigation Receiver Assembly (F92(J), F93(K)). The SWG also connects to the Steering Pad Switch LH and RH assemblies. The Steering Pad Switch LH assembly contains switches for Left, Enter, Up, Down, Right, and Back. The Steering Pad Switch RH assembly contains switches for Left, Enter, Up, Down, Right, and Back. The diagram also shows various connectors and ground points (FD, FC, FB) and their respective pin numbers and labels.
